# **Product information**

# **AERO Aircraft Cleaner**

## **Description**

Gently removes AVGAS, MOGAS, JETFUEL and Smoke Oil combustion deposits from the underside of the fuselage, leaving no residues. The surfactants used in the cleaner are highly biodegradable and environmentally compatible. Dried-in dirt is removed after a short reaction time, leaving the surface clean and free of grease.

#### **Properties**

- easily dissolves stubborn dirt
- biologically degradable
- simple to use
- gentle cleaning
- leaves no residues

#### **Technical data**

pH value 7,5

DIN 19268

Form Flüssig

Density at 20 °C 1,005 g/cm<sup>3</sup>

DIN 51757

Color / appearance Hellgelb

Odor charakteristisch

#### Areas of application

Can be applied on chrome, aluminum, GFRP, CFRP and painted surfaces. Specially formulated for the needs of general aviation.

#### **Application**

Apply the product by spraying it on undiluted and leave for up to 5 minutes to take effect. Wipe off using a soft cloth, turning the cloth over several times. No need to rinse off with water. After using the cleaner, it is recommended that you seal and protect the cleaned surfaces with Aero Speed Wax. Test material compatibility in an inconspicuous place before applying. Do not allow the product to dry and avoid using it on hot surfaces.

### Available pack sizes

500 ml Spray bottle plastic 5903

D-GB-F
